

Navy Child and Youth Programs
2016 Navy Teen Summer Camp Scholarship Program (SCSP) Application

INTRODUCTION

Since 2011, the Navy Teen Summer Camp Scholarship Program, or SCSP, has provided Navy teens with specialty camps that promote healthy, lifelong hobbies and provide teens with opportunities to reduce stress and stay active over the summer. Whether you are selected to backpack through Europe or learn how to scuba dive, we are sure that you will have the summer of a lifetime!

Each year we receive hundreds of applications from teens vying for a chance to experience SCSP. And each year, a lucky few are selected to go to camp. Nevertheless, we receive a great deal of feedback from teens and parents and Navy CYP looks for ways to continually improve SCSP. So, before you begin filling out the application, I will highlight the improvements for 2016.

Character References – This will be the first year that each teen is required to submit a character reference with their application. We have added this item to the application because we hope teens will use SCSP as an opportunity to identify the positive adult figures in their lives that know them best and can assist them in the future when it is time to start looking for a job, accessing the military, or going on to college. This new requirement is entirely intended for teens to strengthen their relationship with positive adult figures and for the judging panel to have a better idea of who are applicants really are. It's a win-win!

Extra Credit – Just like last year, we have a short survey for each teen to fill out before, during, or after submitting their application. The survey does give each teen a few extra credit points, which could be the difference in being selected to go to camp or not. All of the questions are simple and are intended for the Navy to improve our programs for teens.

Frequently Asked Questions – You and your parents are going to have a lot of questions about SCSP. So, after you read over the application and review the camp brochure, please check out the *Frequently Asked Question* section.

Helpful Hints – There is really no better way to help you apply for SCSP than by giving you the advice of previous teens that were selected. Check out the *Helpful Hints* section for details.

Social Media – Since SCSP is a teen program, a good deal of SCSP will be communicated on social media. We typically post something every Thursday/Friday and we're always monitoring the inbox and newsfeed for questions. Feel free to like our Facebook page or follow us on Twitter.

That's it! Good luck with your application and feel free to contact me if you have any questions.

Sincerely,
Brent A. Edwards

INCLUSION POLICY

Navy Child and Youth Programs (CYP) is an inclusion-based organization. Inclusion is an attitude and a philosophy that welcomes and supports all children. Inclusion is a belief in every person's inherent right to participate fully in society. Inclusion conveys the idea that we appreciate each child, that we see each child's gifts, and that we value children of all abilities being together. Inclusive programs are communities where children with and without disabilities live, learn, and play together. The goal of inclusion in Navy CYP is to support the participation of children with and without disabilities in child and youth activities and programs. Children with and without disabilities are respected as contributing members and participate in all aspects of Navy CYP. CYP professionals make respectful accommodations so that all children can be successful in Navy child development centers, child development homes, school age care, and youth and teen programs.

FREQUENTLY ASKED QUESTIONS

Q: Do I have to submit an official school transcript? What if I am homeschooled?

A: We will accept official or unofficial transcripts, progress reports, and report cards as long as they reflect an accumulative GPA. Homeschooled teens must obtain and submit a transcript from their umbrella school/institution or reporting agency.

Q: What if my passport is expired at the time of application? Can I submit my passport information at a later date? What if I am only interested in stateside camp locations?

A: Valid passports must be submitted at the time of application. If an applicant does not submit a valid passport at the time of application, the teen will remain eligible for stateside camps ONLY. If an applicant lives stateside and only wants to apply for stateside camps, a passport is not required.

Q: Who can complete my character reference? What must it include?

A: Character references can be completed by anyone that knows the applicant with the exception of a family member. Suggested references may include, but are not limited to: school personnel (guidance counselor, teacher, club advisor), sports coach, church pastor, employer, etc. Character references must include the referrer's contact information, relation to applicant, opinion/examples of the applicant's character, and the signature of the character reference. Character references may not exceed a single (1) page.

Q: How many scholarships will be awarded? How are scholarships awarded? What are my chances of being selected?

A: Approximately 25 teens attend each camp. So, approximately 150 teens will be given scholarships this summer. Applications are simply based on the merit. A team of professionals score every application on selected criteria. In 2015, 400 applications were received and 140 scholarships were awarded. That's approximately a 35% chance of being selected.

Q: Is there a cost to attend the camps?

The Navy covers approximately 99% of the cost for teens to attend each camp. However, each camp may require the family to fund items that the Navy is not authorized to reimburse. For example, the hiking boots required to attend the OAC Euro Camp become the teen's property after the camp. All estimated personal costs are included in the SCSP brochure.

Q: Who will be supervising me at these camps? Can my parents be a chaperone?

The Navy takes great care in designing SCSP. All teens are supervised by fully trained and experienced Navy CYP professionals 100% of the time. Considering the time and effort the professionals put into SCSP, we consider them to be some of our very best! Parent chaperones are not needed as every camp is fully staffed.

Q: What happens if my sponsor becomes ineligible after I apply or am selected for SCSP?

A teen must simply be eligible for SCSP at the time of application. If the sponsor becomes "ineligible" after the teen has applied or has been selected, we simply make that summer the teen's final summer of eligibility (unless the sponsor becomes eligible again).

Q: Can I apply for more than one camp?

Yes, we encourage every teen to rank their camp preferences. However, 13-14 year olds can only apply and be selected for Sail Annapolis. Ultimately, a teen can only be selected to attend one camp.

Q: How must I submit my application? Can I submit my essays as attachments? Can my school/character reference send my documents directly?

It is recommended to email the SCSP application, eligibility documentation, GPA verification, and character reference in a single email. This decreases the likelihood of missing information (which remains the fault of the applicant). However, some schools may require the direct emailing of transcripts (hence the allowance of unofficial transcripts). All documents must be emailed to navyteenscsp@navy.mil. Physically mailed applications, faxes, and online shared documents (e.g. Google Docs) are NOT acceptable. Essays cannot be submitted as separate attachments, applicants must use the standard application to ensure consistency and fairness.

Q. For the OAC Euro Camp, do I have to submit my sports physical with my application?

No, do not submit your sports physical with your application. The sports physical is only required upon camp selection. All sports physicals must have been conducted in the past 12 months.

Q. Where is the brochure and application located?

HELPFUL HINTS

The below feedback was provided by previous year applicants (teens):

"Weekend mornings are the best time to write and re-write the essays because you have less distractions. Everything else like age, grade, etc. was simple."

"I had my best friend, parents, favorite teacher, youth pastor, and soccer coaches review my application before submitting it. I think it really helped strengthen my application with their feedback."

"When I found out about SCSP, I didn't have a valid passport, so I waited to submit my application until a few days before the deadline. It made me nervous, but I just focused on my application and my parents took care of getting me a passport."
